

# A GSH/SEG Web Symposium

## Marine 3D seismic survey design New tools for new challenges

Start (CST)	Title	Speaker	Affiliation
9:00	Introduction		ACTeQ
9:10	Simultaneous Sources offshore: How to acquire better data faster	Dave Monk	DUG Technology GTI
9:40	Reflections on 13 years of multi-sensor towed streamers & towed Streamer versus OBN	Martin Widmaier	PGS
10:10	Notional ghosts	Gary Hampson	DUG Technology
10:40	Break		
10:50	Seismic survey design and execution for sub-salt velocity measurements	Joakim Blanch	BHP
11:20	Sparse nodes for velocity: What we have learned	Jiawei Mei	CGG
11:50	The Wolfspaar Experience: What Did We Learn?	Joseph Dellinger	BP
12:20	Environmental Risk Mitigation	John Young	DHI
12:50	Wrap Up	Malcolm Lansley	Consulting Geophysicist
