

GSH Annual Golf Tournament 2021

The Woodlands Country Club Tournament Course has been chosen to host this year's Geophysical Society of Houston's Annual Tournament. Winding through the village of Grogan's Mill, the overall design of the Tournament Course promotes the feeling of tranquility, with well-integrated ponds, lakes, natural trees, and pristine landscaping. The Tournament Course serves as host to The Insperity Invitational which will be taking place 2 weeks after our event ensuring that the golf course will be in pristine shape.
